DETAILED ACTION

The Preliminary Amendment filed on 30 October 2003 has been acknowledged.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 30 July 2003 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 30 July 2003 was filed and is being considered by the examiner.

Allowable Subject Matter

3. Claims 47-57 are allowed.

Reasons for Allowable

4. The primary reason for the allowance of claims 47 and 54 is the inclusion of the limitation of means for selecting one printing mode from a first mode in which the printing head is caused to performed only the large ejection, a second printing mode in which the printing head is caused to performed only the small ejection, and a third printing mode in which the printing head is caused to performed both the large ejection and the small ejection, to perform printing in the selected printing mode. It is these

limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

5. The primary reason for the allowance of claims 49 and 57 is the inclusion of the method step of selecting one printing mode from a first mode in which the printing head is caused to performed only the large ejection, a second printing mode in which the printing head is caused to performed only the small ejection, and a third printing mode in which the printing head is caused to performed both the large ejection and the small ejection, to perform printing in the selected printing mode. It is these steps found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.
